

**double-stranded RNA binding, GO:0003725**

- 
- protein kinase inhibitor activity, GO:0004860
  - transferrin transport, GO:0033572
  - sarcomere, GO:0030017
  - muscle filament sliding, GO:0030049
  - T cell proliferation, GO:0042098
  - positive regulation of defense response to virus by host, GO:0002230
  - positive regulation of interleukin-10 production, GO:0032733
  - positive regulation of innate immune response, GO:0045089
  - positive regulation of cytokine production, GO:0001819
  - response to exogenous dsRNA, GO:0043330
  - positive regulation of NF-kappaB import into nucleus, GO:0042346
  - positive regulation of myelination, GO:0031643
  - positive regulation of interferon-gamma biosynthetic process, GO:0045078
  - toll-like receptor 9 signaling pathway, GO:0034162
  - pre-miRNA binding, GO:0070883
