

movement of cell or subcellular component, GO:0006928

platelet aggregation, GO:0070527

Arp2/3 complex-mediated actin nucleation, GO:0034314

Arp2/3 protein complex, GO:0005885

transmembrane receptor protein tyrosine kinase signaling pathway, GO:0007169

actin filament polymerization, GO:0030041

semaphorin-plexin signaling pathway, GO:0071526

GTPase regulator activity, GO:0030695

negative regulation of axonogenesis, GO:0050771

positive regulation of mast cell degranulation, GO:0043306

complement receptor mediated signaling pathway, GO:0002430

feeding behavior, GO:0007631

positive regulation of cell-substrate adhesion, GO:0010811

hydrolase activity, GO:0016810

complement receptor activity, GO:0004875
