

negative regulation of cysteine-type endopeptidase activity involved in apoptotic process, GO:0043154

negative regulation of protein ubiquitination, GO:0031397

response to unfolded protein, GO:0006986

clathrin-coated pit, GO:0005905

positive regulation of endothelial cell migration, GO:0010595

DNA damage response, GO:0006977

growth factor activity, GO:0008083
