

cell body, GO:0044297

- 
- unfolded protein binding, GO:0051082
 - protein folding, GO:0006457
 - negative regulation of neuron apoptotic process, GO:0043524
 - TRIF-dependent toll-like receptor signaling pathway, GO:0035666
 - Ras protein signal transduction, GO:0007265
 - protein binding involved in protein folding, GO:0044183
 - ruffle membrane, GO:0032587
 - positive regulation of Wnt signaling pathway, GO:0030177
 - filopodium, GO:0030175
 - negative regulation of p38MAPK cascade, GO:1903753
 - regulation of necroptotic process, GO:0060544
 - chaperone-mediated protein folding, GO:0061077
 - regulation of extrinsic apoptotic signaling pathway via death domain receptors, GO:1902041
