

regulation of signal transduction, GO:0009966

growth factor binding, GO:0019838

protein phosphatase inhibitor activity, GO:0004864

regulation of cytoskeleton organization, GO:0051493

protein heterotrimerization, GO:0070208

organ induction, GO:0001759

lysophospholipase activity, GO:0004622

acylglycerol lipase activity, GO:0047372

pancreas development, GO:0031016

intrinsic component of membrane, GO:0031224

acylglycerol acyl-chain remodeling, GO:0036155
