homophilic cell adhesion via plasma membrane adhesion molecules, GO:0007155

potassium ion transmembrane transport, GO:0071805

extracellular matrix structural constituent, GO:0005201

phosphoric diester hydrolase activity, GO:0008081

chemokine activity, GO:0008009

positive regulation of mesenchymal to epithelial transition involved in morphogenesis, GO:0030069

cellular defense response, GO:0006968

endogenous lipid antigen binding, GO:0030883
