

**COP9 signalosome, GO:0008180**

substantia nigra development, GO:0021762

protein deneddylation, GO:0000338

eukaryotic translation initiation factor 3 complex, GO:0005852

GTPase inhibitor activity, GO:0005095

actomyosin structure organization, GO:0031032

regulation of JNK cascade, GO:0046328

gastrulation with mouth forming second, GO:0001702

phosphatidylinositol phospholipase C activity, GO:0004435
