translational initiation, GO:0006413

DNA helicase activity, GO:0003678

response to gamma radiation, GO:0010332

clathrin coat assembly, GO:0048268

translation elongation factor activity, GO:0003746

Ran GTPase binding, GO:0008536

regulation of mRNA stability, GO:0043488

DNA polymerase binding, GO:0070182
