

**mRNA binding involved in posttranscriptional gene silencing, GO:1903231**

- 
- gene silencing by miRNA, GO:0035195
  - positive regulation of erythrocyte differentiation, GO:0045648
  - negative regulation of angiogenesis, GO:0016525
  - outflow tract morphogenesis, GO:0003151
  - ventricular septum morphogenesis, GO:0060412
  - positive regulation of connective tissue replacement, GO:1905205
  - negative regulation of cell-substrate adhesion, GO:0010812
  - negative regulation of endothelial cell migration, GO:0010596
  - negative regulation of cardiac muscle hypertrophy, GO:0010614
  - negative regulation of cell-matrix adhesion, GO:0001953
