mRNA binding involved in posttranscriptional gene silencing, GO:1903231 positive regulation of macrophage activation, GO:0043032

gene silencing by miRNA, GO:0035195 regulation of release of sequestered calcium ion into cytosol by sarcoplasmic reticulum, GO:0010880 regulation of ventricular cardiac muscle cell membrane repolarization, GO:0060307 negative regulation of serine-type endopeptidase activity, GO:1900004
