nuclear inner membrane, GO:0005637

nuclear envelope organization, GO:0006998 I-SMAD binding, GO:0070411 macrophage differentiation, GO:0030225 membrane protein intracellular domain proteolysis, GO:0031293 R-SMAD binding, GO:0070412 SMAD protein signal transduction, GO:0060395 meiotic attachment of telomere to nuclear envelope, GO:0070197 acrosomal membrane, GO:0002080 negative regulation of BMP signaling pathway, GO:0030514 transforming growth factor beta receptor, GO:0030618 cortical endoplasmic reticulum, GO:0032541

cytoskeletal anchoring at nuclear membrane, GO:0090286

RNA modification, GO:0009451
