specific granule lumen, GO:0035580

phosphatidylinositol-4-phosphate binding, GO:0070273 MHC class I protein complex, GO:0042612 antigen processing and presentation of exogenous peptide antigen via MHC class I, GO:0002480 DNA catabolic process, GO:0006308 negative regulation of peptidase activity, GO:0010466 peptidase inhibitor activity, GO:0030414 cytolysis, GO:0019835 lysozyme activity, GO:0003796 NLRP3 inflammasome complex, GO:0072559 oligosaccharide catabolic process, GO:0009313 cell wall macromolecule catabolic process, GO:0016998

positive regulation of interleukin-1 beta secretion, GO:0050718
