positive regulation of inflammatory response, GO:0050729

hyaluronic acid binding, GO:0005540 cytokine receptor binding, GO:0005126 toll-like receptor 3 signaling pathway, GO:0034138 anchored component of plasma membrane, GO:0046658 positive regulation of cytosolic calcium ion concentration involved in phospholipase C-activating G-protein coupled signaling pathway, GO:0051482 interleukin-17 receptor activity, GO:0030368

T cell proliferation, GO:0042098
