heart looping, GO:0001947

GDP binding, GO:0019003

apical junction assembly, GO:0043297

negative regulation of canonical Wnt signaling pathway, GO:0090090

regulation of cell size, GO:0008361

phosphatidic acid biosynthetic process, GO:0006654

Cul2-RING ubiquitin ligase complex, GO:0031462

transcription from RNA polymerase III promoter, GO:0006383

homeostasis of number of cells, GO:0048872

glycolytic process, GO:0006096

photoreceptor inner segment, GO:0001917
